The RECORDER was the center of attraction before she put on her new dress. now she will pull the sting out of the tail of all our political enemies, she will take as she has never taken before, for she shines as she has never shone before; full of news and plenty room, all the Opera Houses in the State: for more. I shall do all I can to put her in the homes of every Negro in South Carolina:

Mesars Nix & Holmes, Editors PEOPLE'S RECORDER

Inclosed is express order for \$1.25. I sent the same last mouth thus paying my bill of \$2.50. I thank you very much for waiting so patiently. Will you please send me one of the Recorders of Thanksgiving! I lent mine out, and it was mislaid.

Also, will you please tell us about accommodations colored people are allowed in the Opera House in Columbia! They used to be equal, but there are many people who cannot believe, it seems, that "anything good can come out of South Carolina", and doubts that this can be true. Please be sure to answer this query in print.

Answer-Many thanks for money order: Sorry we havent a copy of the RECORDER asked for, will advertise for copy for you.

There is no state or municipal law debaring an Afro-american from any of the privileges of the Columbia Opera House still it is done all the same. The management of this place of resort and high order entertainments usually sees to it that the Colred citizens are given "plenty room" to themselves. They will take our first class fares, but most always give, second class places. Thus it is now in

When I beheld the improvement made on the journal, and being asked of our popular and earnest correspondent (R, B. Anderson) what I thought of it. I was compelled to say, the RECORDER is bound to lead and that the editors are not only telling the Negroes what to do. and how to be an intelligent race, but demonstrating what can be done with energy, courage, stickability, push and stamina.

The Negroes must stop so much talking and praising Negro brain and Negro enterprises and begin to show more of their ability for business, and desire of progress by their fiancial support. "Action not words," I hope that the Negroes will show their knowledge of a good thing and the appreciation of the RECORDER to such an extent, that when the year rolls around and the zealous cditors shall have looked at their account book and list of sub- Propos scribers, they will be made to exclaim-Eureka (I have found it) 1 am an admirer and supporter of Negro journalism, because it is doing they more to enlighten and elevate our people than anything save the pul-
